PATTEN POINT

YACHT CLUB, INC.

PATTEN AVENUE & RENWICK PLACE •

LONG BRANCH, NEW JERSEY 07740

Dear Patten Point Members, families, and friends:

2020 was an interesting year to say the least. The effects will linger into 2021 a bit but, better days are ahead. In spite of the obstacles, we managed to enjoy our beautiful club and will continue to do so this year. We're planning on a fully open club with all the amenities and a full calendar of social events and meetings. We'll make adjustments if necessary, to comply with regulations and to keep our members, families and guest healthy and safe. We're updating our gadgetry and polishing our Zoom skills in order to hold the first few meetings on-line. As usual we would like to see as many members as possible attend our General Membership meetings. Please reach out if you can use a little help navigating the technology.

We'll be starting off the season in great shape with nearly a full membership and a full marina. Check out this directory for a complete listing of planned Social Events and Meetings as well as Committee assignments and much more. Attending meetings and events, and serving on committees, especially for newer members, is a great way to get involved and form long lasting friendships with other members. If you're interested in helping out with a social event or joining a committee simply contact the chairperson or organizer to get involved.

We're always looking for the next generation of leadership to continue the traditions and to maintain the great history of our club. Let us know, if you're ready to be considered for a Bridge or Board Position, Committee Chairperson or Advisor for next year.

It has been my pleasure to serve on the Bridge and Board for the past few years and truly an honor to be elected Commodore for 2021. Thank you for your confidence. I look forward to working with the 2021 Bridge and Board as well as all of the Past Commodores to make 2021 a year to remember.

Boat owners are solely responsible for the outside contractor servicing their boat and assume any and all liability for damage to the marina or other vessels as a result of actions by the outside contractor. Contractors must remove from the property any waste created as a result of the service. MARINA STORAGE POLICY

1. Boats berthed at the Club marina must be covered by formal contract between the Club and the boat owner. This shall be an annual contract covering the period May 1 to April 30. Until a formal contract has been executed, the fees published in the PPYC Fee Schedule for Visitor Dockage must be paid thru to the date of contract. An exception will be made for new applicants to PPYC. The transient fee will be applied towards the cost of the marina Storage contract from the original date the vessel was berthed upon acceptance as a probationary member. In no case will the cost of transient fees exceed the maximum applicable annual Storage contract.
2. Dock charges are assessed on an annual basis regardless of the date boats are berthed. Exception: Dockage charges for new contracts offered and/or executed subsequent to July 31 shall be assessed on a pro-rata basis for the year (May 1 thru Apr 30). Any deviation from this policy must be approved by the Board of Governors.
3. Where a boat is held under a joint ownership arrangement, i.e., by two or more individuals other than husband and wife, all involved owners must be Regular members of the Club. Such arrangements shall be clearly noted in applications for membership.
4. Boats sold to non-members while in Storage at Patten Point Yacht Club shall be removed from the marina within ten (10) days of transfer of ownership. If the boat is sold during the winter months and cannot be removed, the member remains fully obligated under the terms and conditions of the Storage contract. In this case the boat must be removed no later than the expiration date of the contract.
5. To be accepted for a permanent slip assignment the maximum LOA (as defined in rule 8) of a boat may not exceed the length of the slip assigned. The Board of Governors may approve an exception should a member make a request and a slip is available that can accommodate the boat without additional risk or hazard to the Club.
6. A "bubbler" system is installed each winter to protect the marina pilings from ice damage. While every effort is made to maintain an adequate air flow via the major system, PPYC cannot be responsible for damage to boats through failure of the "bubbler" system. PPYC does not bubble individual boats that winter store in the water. Each member assumes full and complete responsibility for protecting his/her boat, and equipment, against damage from freezing and other

winter hazards. Bubbling of a member's boat is at the discretion of each boat owner. All members who install "bubbler" systems, connected to the system air supply, must include shut off valves, and be approved by the Fleet Captain. The Fleet Captain will issue detailed instructions as to when and how the main "bubbler" system will be installed and removed. All boats that are not winter stored at PPYC, must be removed from the marina prior to bubbler day. Installation of the "bubbler" system will prevent movement of boats.

7. Boats must be secured to pilings and docks in a manner approved by the Fleet Captain. Boats winter stored must be secured with double lines. The normal tide range is about 2-1/2 feet, with a 7 foot range during unusual tide conditions.
8. A boat occupying a "large or regular" slip shall be no less than 23 feet, length overall (LOA). The LOA shall be determined by the documentation or registration papers. Any boat that is less than 23 feet shall be classified as a small boat.
9. Small boat slips are seasonal. Small boats belonging to members may be stored on trailers in the Club parking lot during the winter. Club member trailers without small boats may also be stored in the Club parking lot during the winter. All Storage fees shall be as indicated in the PPYC Fee Schedule of the Annual Directory winter season. Small boats without trailers may not be stored in the Club parking lot at any time. The winter parking lot Storage period shall be from Labor Day to Commissioning Day, by which time all small boats must be removed from the parking lot. No work may be done on the small boat while in parking lot Storage. Trailers must also be removed from parking lot by Commissioning Day unless the member has a summer trailer Storage contract. The stored small boat must be insured.
10. A member can keep a small boat at the marina as his only boat, except that in this circumstance the member will pay for the boat at the large boat rate, and there is no one else ahead of him on the small boat waiting list.
11. For emergency pump-out of member boats, the Club has a heavy duty pump available at the head of both B and C docks.
12. Boats shall be equipped to meet minimum U.S. Coast Guard requirements. Current Coast Guard Auxiliary Inspection Certificate shall be obtained, if possible.

13. The Fleet Captain and/or the Club Steward reserves the right to board boats in an emergency situation and take such action as required to protect the boat and/or adjacent boats. The boat owner must supply the Fleet Captain with a key to the boat so that the boat may be boarded in an emergency situation. Boat keys shall be placed in a location that is accessible by other members of the Marina Committee in case of emergency.
14. Regular slip charges will be based upon whichever is greater, boat length overall (LOA) or slip length.

BOAT INSURANCE

Boat owners, including owners of personal watercraft, must submit either a current Certificate of Insurance, Renewal Certificate or Policy Declarations page with minimum limits of \$500,000.00 each for property damage and bodily injuries, on or before the inception date of member's policy. Insurance documents shall be submitted to the Fleet Captain with current dockage agreement, on or before April 30th.

Members who do not supply insurance documents, shall not be entitled to a contract for dockage and shall be required to forthwith remove his/her boat from the marina.

Members contemplating the purchase, sale or replacement of boats in the marina should discuss the matter with the Fleet Captain to avoid a misunderstanding later as to slip assignment and rental charge.

Marina slip rental fees are established each year by the Board of Governors. Current year rates and fees are listed under "Membership Charges and Privileges" in this Directory. All questions regarding the application of marina fees should be addressed to the Fleet Captain.

MARINA SLIP ASSIGNMENT POLICY

Assignment of slips in the Club marina is the responsibility of the Fleet Captain. Insofar as possible, assignments will be based on the relationship of boat length to slip length, taking into consideration past occupancy and seniority of the boat owner as set forth below.

Slips assigned for the previous season will be reassigned to the same boat. Any member intending to surrender any assigned slip must notify the Fleet Captain in writing, registered letter, or confirmed email on or before November 1st of the year prior to the surrender season which

begins May 1st of the following year. Failure to do so will obligate the member to pay for that slip.

Completed Storage contracts must be returned to the Treasurer with payment by April 30th. Treasurer will forward contracts to the Fleet Captain in a timely manner. Failure to return contracts on time is sufficient reason for the Fleet Captain to consider the slip vacated and available for reassignment.

The slip of a member in good standing who is granted the slip on a permanent basis cannot be reassigned except for the following:

- Consent from the member.
- The slip has been vacant for two consecutive boating seasons. A season is defined by the slip contract as of May 1st to April 30th, except that the member must give intent by November 1st of the second year if they plan to reoccupy the slip. Exceptions can be granted by the Fleet Captain.

The Fleet Captain may designate temporary slip assignments and change the temporary assignment to better accommodate the vessel.

Vacant slips shall be assigned in the following order: Waiting list, boat-to-slip relationship, seniority.

Any member purchasing a boat that is larger than his slip must notify the Fleet Captain in writing and get permission prior to the boat being brought into the marina.

All small boat slips are not of equal size, access or ability to accommodate the maximum small boat size approved by the Club. Accordingly, the Fleet Captain, with the concurrence of the Marina Committee and approval of the Board, will document and publish the maximum allowable boat size approved for each individual small boat slip.

Members may exchange slips with other members provided the move does not conflict with the slip assignment policy, and that prior approval has been obtained from the Fleet Captain. When there is a mutual exchange of slips or a reassignment at the request of the boat owner, any expense involved, i.e., relocating finger piers, telephones, or up-grading electric service, will be borne by the boat owner.

Members desirous of changing to a particular slip presently assigned to another member should make a formal request in writing to the Fleet Captain for that slip when and if it is vacated. A wait-list, in the order such

requests are received, is maintained by the fleet Captain, from which vacated slips are assigned. EXCEPTION: Vacated "T" dock slips will be reassigned by the Board of Governors after consideration of all factors - wait-list priority, seniority of member, service to the Club and relationship of boat length to slip length. The wait-list maintained by the Fleet Captain may be reviewed at any time. Slips located on the "T" docks are charged an additional \$1.00 per foot.

A member is entitled to one (1) numbered slip. A second slip may be assigned, if available, but only with the understanding that it must be vacated if required to accommodate a new member boat. Should a member be forced to vacate a second slip, a pro-rated refund will be due the vacating boat member.

An owner may request and move his boat to a more protected available slip with the approval of the Fleet Captain. Electric service to the temporary slip is the owner's responsibility.

The Fleet Captain reserves the right to assign visiting boats to member slips during such period as the member boat is away from the marina without reimbursement to the member for the slip except for electric use. The Fleet Captain will reimburse the electric fee, as published in the PPYC Fee Schedule, to any member whose slip and electric was used by a guest.

All member boats must be kept in their assigned slips. Boats, jet skis, etc. occupying space not assigned to the member, unless specified permission is granted by the Fleet Captain, is subject to a penalty as listed in the PPYC Fee Schedule. This applies to all empty slips and T-docks, regardless of the season.

In unusual circumstances involving slip assignments not covered in the policy, or where interpretation of the policy provisions is in question, the decision of the Fleet Captain will be final subject only to reversal by the Board of Governors upon formal written appeal.

DOCK BOXES

Dock boxes shall be permitted and shall be supplied solely by Patten Point Yacht Club and billed to individual members.

STEPS AND RAMPS

Each vessel shall be entitled to only one mode of access to and from the boat, by way of either ramp or steps. Any steps shall be contained within the member's finger pier and shall not exceed 50% of the width of said

finger pier. The steps must be white fiberglass and expressly approved by the Fleet Captain. The configuration, size and location of ramps must first receive the express approval of the Fleet Captain prior to installation.

METERED DOCKSIDE ELECTRIC SERVICE

Dockside electric service to boats is through individual meters. Members must apply directly to the electric company for service. All members must instruct the electric company to send their bill to the member's home or office.

EQUIPMENT STORAGE

The Club is not responsible for boats or personal property stored on its property. Storage of any personal property on premises is prohibited.

SMALL BOAT STORAGE

Members who store dinghies, jet skis, or other small boats on Club property do so at their own risk. These boats and jet skis must be covered by a formal contract between the Club and the owner. This shall be an annual contract covering the period of May 1st to April 30th. It is recommended that such boats be secured to the boat rack, especially during the winter months. Boat trailers must be parked in a manner approved by the House & Grounds Chairman.

Members and their children should check with the Fleet Captain regarding proper use of the small boat hoist. Do not attempt to hoist boats exceeding 1000 pounds.

Small boats without an assigned slip must be kept on the owner's boat or on shore. Tying up to the "T" docks or in another member's slip without permission is not permitted.

Any member assigned a small boat slip must occupy that slip within one boating season, starting as soon as the slip is available and to include the months of June, July, August. If the slip is assigned during one of those three months, the member shall have until the following year to allow for the missed month (s) to occur.

Once a member has not occupied the slip with a small boat, the member shall be removed from the waiting list and the slip will be assigned to the next member with an appropriate sized boat for the slip.

Small boats shall be defined as boats between 13 feet and less than 23 feet in length.

Assignment of small boat slips is the responsibility of the Fleet Captain. A small boat request list is maintained by the date the request is received.

The insurance requirements set forth above apply to all vessels in the marina.

USE OF CLUB FACILITIES

Club members may request the use of Club facilities for special events or occasions such as wedding receptions or other events which may temporarily limit the use of those facilities to other Club members.

1. The request shall be made in writing to the House and Grounds Chairperson at least thirty days in advance giving full particulars; name of member/sponsor, brief description or purpose of event, date and duration, number of guests, facilities requested, and set up and clean up arrangements.
2. The House and Grounds Chairperson shall approve the request provided a) the event is not in conflict with scheduled PPYC activities; b) the event will not impact negatively on the resources or facilities of the club, or the welfare of Club members; c) the member/sponsor assumes full supervisory responsibility including timely cleanup of the facilities used. No events shall in any case be scheduled on Friday, Saturday, or Sunday during the summer months (May 1 to October 31).

4. A certificate of insurance shall be submitted by the applicant having a minimum of \$1,000,000 combined single limit coverage for bodily injury and property damage, designating PPYC as beneficiary.
5. Upon approval of the request, the applicant shall be assessed the amount of \$200 to cover the costs of Club usage including, but not limited to, electricity, water, heat and air-conditioning. In the event of breakage or damage to Club property during the event, the applicant may be assessed an amount covering the costs of repair or replacement. The House and Grounds chairperson shall determine any additional assessed amount. In addition, the Chairperson shall notify the membership of any temporary restrictions in their use of the facilities. The chairperson shall insure that the facilities are ready and available as requested.

RESIGNATION POLICY

The resignation policy of the Club has been established to protect both the resigning member and the Club. A member who wishes to resign must submit a letter of resignation to the PPYC Secretary by electronic means which must be received by the secretary no later than November 1st in any given year or by Certified US Mail which must be postmarked no later than November 1st in any given year. This acknowledging email will serve as his/her proof of resignation. Should the member not receive an email receipt, he/she must call the Secretary to confirm that the Secretary's email address is correct. The member will then re-send or mail his/her resignation as per above. The resignation will become effective on December 31st of that same year in which it was submitted. Under the policy, a paid up member retains full privileges and is subject to all obligations and responsibilities of membership until December 31st. If a resignation is not received by November 1st, the member will be automatically renewed for membership the following year.

A member whose resignation letter is received after November 1st and has not paid their dues will have their membership terminated effective immediately by the Board and their bond will be used to cover any and all indebtedness to the Club including unpaid membership dues. The Board shall not make exception due to late arrival or any other reason. It is the member's responsibility to notify the club of intent to resign in a timely manner.

Should a member resign on or before November 1st with a boat still berthed in the marina for winter Storage, the marina contract shall continue to be binding on both the resigned member and PPYC. The boat must be removed from the marina no later than April 30th. Boats not removed by that date shall be subject to per diem dockage fees.

CLUB HISTORY

Patten Point Yacht Club is steeped in a rich and colorful past ... its founding members, headed by Dr. Martin Rush, were boating enthusiasts who had a dream and when the dream turned into reality-PATTEN POINT YACHT CLUB was born.

The Patten Point Yacht Club, as it exists today, is an outgrowth of an earlier organization - The Monmouth Power Boat Association which was oriented primarily towards power boating. Its basic aims were much as they are today ... combining educational activities with social activities in facilities suitable for boating, entertaining, dining and other recreational activities. As membership in the MPBA grew and the desirability of broadening its interests beyond only power boats became evident, a search was instituted for a facility best suited to the projected range of club activities. After a long search, the Patten Estate located at Patten Avenue and Renwick Place in Long Branch, New Jersey emerged as the final choice.

On May 29, 1964, the Monmouth Power Boat Association amended its Certificate of Incorporation and became the Patten Point Yacht Club. A great deal was then accomplished The Patten Estate was purchased, extensive renovation initiated, long-range plans laid, membership solicitation undertaken and a program of activities planned. No one who had been through this initial period could claim that it was an easy time, but the emerging fruits of their efforts are evident.

The house was built in the late 1800's for Captain Thomas Gedney Patten who owned the Patten Steamship Line (and from whom the street and the Patten Point area take their names). In 1898, the Patten Steamship Line and the Atlantic Coast Electric Railway joined to build the Riverside Hotel and the Riverside Park on

adjacent Pleasure Bay. The park was equipped with a fish pond, merry-go-round, picnic groves, dance pavilion and a floating theater on the Shrewsbury River.

That was at the turn of the century when Long Branch was regarded as the summer capital of the United States. The Patten Steamship Line ran three ships, the SS Pleasure Bay (1890-1905), SS Mary Patten (1893-1929) and the SS Thomas Patten (1901-1919) on a route from Pleasure Bay, Long Branch to Sea Bright, to the Highlands then on to New York City.

It is said that the Patten House was built by Ship's carpenters and many of the construction details support this theory the turned post woodwork, the garlanded medallion ceilings, Victorian balustrade, and the many beautiful mantels. The house is a three-story, twenty-two room mansion, situated on over four acres of land. It makes an ideal setting for a yacht club.

Among the US Presidents and other famous guests known to have visited the Patten home was Sir Thomas Lipton whose yacht "Shamrock" competed in the Americas Cup Races in the early 1900's. A painting of one historic Lipton Yacht "Shamrock V" adorns a wall in the Clubhouse foyer.

It is obvious that the vitality of the past and present Club membership, and the magnificent Club property form a firm foundation on which is built one of the finest yacht clubs on the East Coast.
